

Key Issues and Preference* re Those Needing Further Discussion

Item	Votes	Recap
Conservation	2	11
1 Support and urging for more conservation incentives	4	
2 More public education/involvement, more effort to notice renters of offers	3	
3 Don't use saved water for growth	1	
4 Support for Tiered Rates for users	1	
Environmental Impacts and Mitigations	2	8
5 Concern for cumulative regional impacts, wildlife impacts, cost to environment, plan re ESA	4	
6 ESA impact on need for Filtration Plant and cost		
7 Impact of Diversions from Russian River on fish	2	
Watershed Management	1	11
8 Need Watershed Management Plan	8	
9 Goal should be sustainability	2	
Water Supply	2	16
10 Live within limits of watershed/available supply	7	
11 Need Regional Master Water Plan/Policy	5	
12 Clear up water rights, pin down in agreement	2	
Recycled Water	1	10
13 Promote and expand use of recycled water	5	
14 Define recycled use plans better. Set goals.	3	
15 Upgrade treatment of wastewater and use for ground water recharge	1	
Agreement Governance		1
16 Upgrade WAC, improve diversity of representation	1	
Financing and Cost Allocation	2	2
17 Equity between current and future customers a concern. Current customers too burdened.		
18 Equitable cost distribution among contractors a concern		
General Plan Relationships	1	3
19 Synchronization, relationship of water plans and General Plans a concern		
20 Growth inducing impacts of increasing water supply are a concern	2	
Ground Water		13
21 Study/promote ground water recharge including construction of detention ponds	7	
22 Measure ground water depletion and replacement	6	
Water Quality	3	4
23 Reduce/eliminate harmful chemical discharges, pharmaceuticals, etc	1	
Potter Valley Project	3	8
24 Concerns about Eel River diversion impacts on Eel River	3	
25 Importance of Eel River to Russian River interests	2	
Gravel Mining	1	13
26 Impact of gravel mining practices on need for filtration plant, cost	5	
27 Gravel mining impacts on River water quality and environment	7	
Transmission Project Design and Scheduling	1	1
28 Need to tailor Transmission Project scheduling to local needs. Don't force projects		
Better Communication		1
29 Better communication by SCWA of financial information to contractors and others	1	
30 Better sharing by SCWA of information		
Added by Participants in Workshop No 2		7
31 Separate Elected SCWA Board (should be vehicle to address this issue)	2	
32 Agricultural toxic chemicals/runoff impacts (sediments in sands/gravel and water quality)	1	
33 Pollution from boating/swimming in reservoirs (Sonoma, Mendocino, Pillsbury)		
34 Long term carrying capacity (need to estimate)	3	
35 Stakeholder/WAC meeting in Ukiah	1	
36 Regulations on extractions from tributaries		
37 Whole new agreement, not just amendment of existing agreement		
	109	109

* Preference expressed by non-utility participants in Workshop 2 (each non-utility participant was given 3 dots (votes) to indicate preferences.
